

# New Century Oil Spreader

## GENERAL INFORMATION

New Century OIL SPREADER is a combination of surfactants and a proprietary blend of paraffinic petroleum oil designed for use with agricultural chemical spray programs to optimize product performance by increasing penetration into the leaf surface, giving more uniform wetting and more uniform distribution of the active material. Provides improved retention of pesticide deposits under adverse weather conditions.

## PRECAUTIONARY STATEMENTS

**CAUTION:** Hazardous to humans and domestic animals. Harmful if swallowed. Avoid contact with eyes, skin or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

## CONDITIONS OF SALE

Follow directions carefully. Timing and methods of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with direction given herewith.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Follow all recommended governmental procedures for disposal of pesticide spray solutions. Triple rinse container, empty rinsate and spray tank. Dispose of empty container according to local practices: Contact county agricultural commissioner for container disposal information.

## SPECIMEN LABEL

## PRINCIPAL FUNCTIONING AGENTS:

Proprietary blend of paraffinic petroleum oil.....	83.0%
Poly fatty acid esters and polyethoxylated derivatives hereof.....	17.0%
Total.....	100%

All Ingredients are exempt from tolerance levels in CFR 40, 180.1001.

## CAUTION: KEEP OUT OF REACH OF CHILDREN

**FIRST AID:** If this product gets into the eyes, immediately wash the eyes with large amounts of water for at least fifteen minutes. Seek immediate medical treatment. If this product gets on the skin, immediately wash the contaminated area. Seek medical attention if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water. Do not induce vomiting. Seek immediate medical treatment

## PREPARATION OF SPRAY MATERIAL

1. Fill spray or mix tanks with 1/2 to 3/4 the desired amount of water. Start mechanical or hydraulic agitation.
2. Add the required amount of pesticide and the remaining volume of water and mix the contents thoroughly.
3. Add the required amount of this product and continue agitation until a uniform mixture is obtained.

Note: Maintain constant agitation of the spray mixture during standing and application to assure uniform pesticide application.

## DIRECTIONS FOR USE

Read directions and conditions of sale. Use in strict accordance with pesticide label cautions, warnings and other directions.

**CAUTION:** Keep container tightly closed. Do not allow water to be introduced to contents of this container. Do not use New Century OIL SPREADER in sprays applied during periods of extreme high or low temperature and/or humid conditions. New Century OIL SPREADER should not be used with any product whose label recommends against the use of a surfactant.

## COMPATIBILITY

New Century OIL SPREADER may be used with wettable powder, emulsifiable concentrate or solution formulations of most of the pesticides, insecticides and miticides now on the market.

**Defoliants, Desiccants:** Use 1 to 4 pints of New Century OIL SPREADER per acre in combination with the recommended defoliant or desiccant.

**Insecticides & Fungicides:** Use 1/2 to 2 pints of New Century OIL SPREADER per 100 gallons of spray solution in combination with the recommended fungicide.

**Herbicides:** Use 1 to 4 pints of New Century OIL SPREADER per acre in combination with the recommended herbicide.

**NOTE:** The above use recommendations are considered to be adequate for most uses. Some pesticides, however, may require higher rates for optimum effect. Follow the pesticide label directions when this occurs. However, do not add this product at a rate that exceeds 5% of the finished spray volume.

**IMPORTANT READ PESTICIDE LABEL BEFORE USING THIS PRODUCT**
