

MISO ULTRA

METHYLATED SEED OIL

PRINCIPAL FUNCTIONING AGENTS

Methylated Seed oil, Nonionic Surfactants & Methylated esters of free fatty acids.....100.0%
All ingredients are exempt from tolerance levels in CFR 40, 180,1001

KEEP OUT OF REACH OF CHILDREN

CAUTION

GENERAL INFORMATION

MISO ULTRA is an active premium blend of methylated seed oil and non-ionic surfactants. It provides superior spreading, penetration and activation of herbicides, as well as with other pesticides and/or fertilizers. MISO ULTRA is designed for use with agricultural chemical spray programs to optimize product performance by increasing leaf penetration while giving a more uniform distribution of the active materials.

PRECAUTIONARY STATEMENTS:

STATEMENT OF PRACTICAL TREATMENT

FIRST AID: if this product gets into the eyes, immediately wash the eyes with large amounts of water for at least 15 minutes. Obtain immediate medical treatment. If this product gets on the skin, immediately wash the contaminated area and seek medical attention, if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water and seek immediate medical attention. Do not induce vomiting.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Follow proper procedures for the disposal of spray solutions. Rinse and dispose of empty containers according to approved local practices.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Weather, crop conditions, timing and methods of applications, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage, or handling of this material not in strict accordance with directions given herewith.

DIRECTIONS FOR USE:

Preparation of Spray Material.

1. Fill spray or mix tank with 1/2 to 3/4 the desired amount of water. Start mechanical or hydraulic agitation.
2. Add the required amount of pesticide.
3. Add the remaining volume of water and mix contents thoroughly.
4. Add the required amount of MISO ULTRA last and continue agitation until a uniform mixture is obtained.

NOTE: Maintain constant agitation of spray mixture during standing and application to assure uniform pesticide application.

Defoliants, Desiccants: Use 1 to 4 pints of MISO ULTRA per acre in combination with the recommended defoliant or desiccant.

Insecticides & Fungicides: Use 1/2 to 2 pints of MISO ULTRA per acre in combination with the recommended fungicide or insecticide.

Herbicides: Use 1 to 4 pints of MISO ULTRA per acre in combination with the recommended herbicide. **NOTE:** The above use recommendations are considered to be adequate for most uses. Some pesticides, however, may require higher rates for optimum effect. Follow the pesticide label directions when this occurs. However, do not add this product at a rate that exceeds 5% of the finished spray volume.

COMPATIBILITY

MISO ULTRA may be used with wettable powder, emulsifiable concentrate or solution formulations of most of the pesticides, insecticides and miticides now on the market.
