GENERAL INFORMATION

2-14-18 EQUAL + is formulated to be used in most soil and foliar applications or applied through a drip system.

2-14-18 EQUAL + has a low salt index and is readily absorbed by the plant tissue to provide rapid translocation to the deficient points.

Do not combine with oils.

Caution: Do not apply when the crop is excessively stressed for moisture or during periods of high temperatures.

Do not apply to run off.

Do not apply with salts, spray oils, non-chelated metals, or sulfates.

Do add, as a minimum, equal amounts of water. Use sufficient water to provide thorough coverage

Caution: Do not apply directly on the seed. Adequate soil moisture must be available to avoid germination problems.
