SUGAR quick

Enhanced Liquid Potassium Nutrient

SUGAR QUICK[a] is a high analysis liquid potassium fertilizer enhanced with organic acid and bio-stimulants. This formulation provides faster uptake than other potassium formulations. SUGAR QUICK has been shown to provide a fast, controlled increase of sugar in plants. Potassium is vital to photosynthesis in plants and is important in the breakdown of carbohydrates. This process provides energy for plant growth and is essential for fruit formation and maturity.

CAUTION: This product contains boron in amounts which could be excessive for some crops. Contact your local agricultural authority for information on specific cropsAvoid applying SUGAR QUICK if the crop is under heavy stress from pests, drought or in excessive heat.

SUGAR QUICK may be mixed with most pesticides, however, it is always advisable to perform a simple jar test before mixing. Do not mix SUGAR QUICK with non-chelated nutrients such as calcium, copper, manganese, magnesium, iron or zinc compounds. Do not mix with sulfate or chloride salts or with spray oils.
