**ALL SEASON  
ZINC NUTRIENT**

# ALL-GRO X-TRA

#### GENERAL INFORMATION

ALL-GRO X-TRA is a unique formulation of zinc sulfate enhanced with organic complexors and biostimulants for improved nutrient effectiveness. Zinc acts as a catalyst for plant hormones which stimulate nutrient uptake, promoting and controlling new growth. This product is designed for all-season use in soil, foliar or seed treatments, beginning at seed planting and extending through pre-harvest. ALL-GRO X-TRA has been shown to help safen the effect of some post-emergence herbicides, especially on rice and cotton. ALL-GRO X-TRA is compatible with most pesticides and fertilizers and may be used with other crop protection sprays during the growing season. However, a compatibility test is recommended if the desired combination has not been used in the past.
